

Magcam MiniTable working platform with magnetic field camera

MiniTable working platform

The MiniTable is a working platform in which the MiniCube1D or MiniCube3D magnetic field camera is built-in. It is equipped with an adjustable and calibrated positioning frame that allows to accurately position small magnets in a reproducible way. The position of the frame can be adjusted in the XY plane in order to position magnets of different sizes.

MiniTable working platform with 3D magnetic field camera

Features:

- Calibrated magnet positioning frame
- XY-position of frame corner with respect to sensor origin is continuously adjustable (X and Y independently)
- Size: 85mm x 85mm x 30mm
- Retractable reference plates on X and Y sides
- Possibility to mount custom positioning frames
- Material: anodized aluminum
